

# OUR MOST EFFICIENT reFresh Fans KEEP GETTING BETTER!

Our reFresh Full Size 160EC models have been recognized by Energy Star as “ENERGY STAR® Most Efficient 2019”! The ENERGY STAR Most Efficient Mark is an extension of the ENERGY STAR brand and is designed to recognize and advance the most efficient products among those that qualify for the ENERGY STAR.

RF10-160EC • RF10-160EC-ES24V • RF10-160EC-P • RF10-160EC-P-ES24V

## What is reFresh?

These all-in-one units introduce fresh air from the outside into the residence. The reFresh products are specifically engineered to meet building and energy codes that call for ASHRAE 62.2 CFM requirements. The reFresh Full Size Units have set speeds at 40, 100, and 170 CFM (Low, Medium, and High).

These units (*RF10 Series*) feature high quality, efficient S&P backward inclined motorized AC or EC impellers. The full size units feature heavy-duty galvanized construction, integral metal duct collars designed for 6” round duct, and integral backdraft dampers. There are 8 model options with and without S&P’s exclusive ES24V control and with or without 6’ power cords. The reFresh products are designed for easy installation and maintenance, giving the homeowner the best IAQ solution in an all-in-one unit.
